Profile

Full Stack Developer (Front-End Focus) with 4+ years building scalable web apps using React.js, Node.js, and modern stacks. Expertise in UI/UX optimization, real-time features (video chat, face recognition), and DevOps (AWS, Firebase, Jenkins, Vercel). Proven in delivering 100+ features for HR, banking, and education platforms, bridging business needs with high-performance code. Career switch from Civil Engineering through an immersive Full Stack JavaScript Bootcamp at Hacktiv8.

Work Experience

- Brain Manager (Project Manager & Fullstack Engineer), 80&Company/OCT-PATH** *Nov 25 - Present*
Lead strategic planning, execution, and delivery of multi-layered digital products while contributing directly to system architecture, development, and DevOps.
 - **Managed end-to-end delivery** across multiple workstreams including business flow design, workflow automation, and technical architecture.
 - **Built full-stack features** involving PDF automation, assessment engines, secure authentication flows, and content platforms.
 - **Contributed to DevOps** processes including environment setup, CI/CD, deployment, and performance optimization.
 - **Acted as both project manager and technical contributor**, ensuring balance between execution speed and product quality.
- Front End Developer, Daya Dimensi Indonesia (HR Tech)** *Feb 22 – Present*
Delivered 80+ production-ready features across HR, assessment, learning, and communication platforms using modern React-based architecture.
 - Built advanced modules such as AI-driven assessments, face recognition, real-time chat/email systems, dynamic org charts, and video conferencing.
 - Improved user experience and performance across multiple SaaS products.
 - Led front-end flows for EnGauge, Learning Hub, DASH SaaS, WISH, ACELENTS, and PortraAI.
 - Drove iteration cycles through close collaboration with stakeholders and QA.
- Front End Developer, IDE Asia (FinTech)** *Oct 21 – May 22, Sep 24 – Aug 25*
Developed regional-scale banking features and collaborated with global consulting teams.
 - Delivered core UI flows for BI-FAST interbank transactions.
 - Contributed to Vietnam eTax Payment integration.
 - Built 20+ production features improving CX for retail banking platform.

Education

- Fullstack Javascript Immersive Developer Bootcamp, Hacktiv8, Jakarta, Indonesia** *Jun 21 – Sep 21*
- Graduated with final score: 89.71 / 100.00
 - 4 months bootcamp and hands-on in JavaScript, React, Node.js, databases, and full-stack product development.
- Bachelor of Civil Engineering, Parahyangan Catholic University, Bandung, Indonesia** *Jun 14 – Jan 19*
- GPA: 2.94 / 4.00
 - Background acknowledged as career start; transitioned to tech after Hacktiv8

Leadership and Entrepreneurship

- Co-Founder and Project Estimator, Atelier Jous** *Oct 20 – Jun 21*
Successfully led a residential renovation project valued at US\$4,500, managing end-to-end execution including shop drawings, cost estimation, and on-time, on-budget delivery.
- General Director of Student Welfare, Student Executive Board Member (LKM UNPAR)** *Oct 17 – Jun 18*
Oversaw strategic planning and fund management for welfare-related initiatives, supervised program development under the Directorate General of Student Welfare and the Ministry of Home Affairs, and managed student feedback while administering the PM UNPAR Aspiration Tracking system.
