Professional Profile

Analytical Frontend-Focused Full Stack Engineer with over 4 years of experience driving technical excellence in the HR Tech and FinTech sectors. Successfully delivered 100+ production-ready features by leveraging structural engineering rigor to bridge complex business requirements with high-performance execution. Currently specializing in AI-augmented development workflows using tools like Claude Code and Antigravity to accelerate the SDLC, maximize engineering efficiency, and optimize system scalability.

Work Experience

1. Brain Manager | 80&Company/OCT-PATH | Freelance

Nov 25 - Present

- Architected and orchestrated multiple parallel workstreams to ensure on-time delivery of multi-layered digital products while maintaining high product quality and performance standards.
- Integrated AI-augmented development workflows using Claude Code to synthesize complex requirements and accelerate development cycles.
- Lead end-to-end product delivery as both Project Manager and Full Stack Engineer, strategically balancing business objectives with technical execution requirements.
- Engineered specialized features including assessment engines, secure authentication systems, and automated PDF generation tools.
- Implemented scalable architectures and automated workflows for frontend and backend environments, managing DevOps processes including CI/CD setup and deployment.

2. Front End Developer | Daya Dimensi Indonesia (HR Tech) | Full Time

Feb 22 – Present

- Delivered 80+ production-ready features for industry-leading HR, assessment, and learning platforms including EnGauge, Learning Hub, DASH SaaS, WISH, ACELENTS, and PortrAI.
- Engineered complex, high-impact systems involving AI-driven assessments, facial recognition technology, and real-time communication modules.
- Reduced UI latency by approximately 50% through rigorous code optimization, significantly improving responsiveness and overall user experience across the product suite.
- Translated complex business requirements into modern React-based architecture, bridging the gap between stakeholder vision and high-performance technical execution.

3. Front End Developer | IDE Asia (FinTech) | Contract

Oct 21 – May 22, Sep 24 – Aug 25

- Architected core UI features for regional-scale banking systems BI-FAST interbank transaction flows.
- Integrated Vietnam eTax Payment systems, ensuring strict compliance with regional financial regulations and security standards.
- Collaborated with international consulting teams from Deloitte to align technical implementations with global business requirements.
- Delivered 20+ high-quality features aimed at enhancing customer experience (CX) for retail banking platforms.
- Re-engaged for a second contract in a Senior capacity following a successful initial term as a Junior Developer.

Technical Skills

- **Front End:** React.js, Next.js, Vue.js, React Native, Redux, Axios, GraphQL, Vite, Astro, Tanstack, Javascript, TypeScript, Websocket (socket.io, stompClient), Chartjs, Tailwind, Bootstrap, shaden/ui, Ant Design, Material UI, Playwright, Vitest.
- **Back End:** Node.js, Python, FASTapi, Express, PostgreSQL, MongoDB, Sequelize, Mongoose, Supabase, Prisma, Nest.js.
- **DevOps & Tools:** GitHub (Actions/Issues/Project), Bitbucket, AWS (EC2 & S3), Jenkins, CI/CD, Docker, Firebase, Postman, JIRA, Trello, Slack, Google Workspace, Microsoft Office, Confluence, Neon, Vercel, Railway, Sonar.
- **AI & Productivity:** Claude Code, Z.ai (GLM), Antigravity, GitHub Copilot, NotebookLM, Perplexity AI (Research), ChatGPT (Prompt Engineering), Codex (Review on PR).

Education

Fullstack Javascript Immersive Developer Bootcamp | Hacktiv8 | 89.71/100.00

Jun 21 – Sep 21

- Completed intensive hands-on training in JavaScript, React, Node.js, and database management.

Bachelor of Civil Engineering | Universitas Katolik Parahyangan | 2.94/4.00

Jun 14 – Jan 19

- Degree provided a rigorous structural logic and analytical foundation essential for solving complex software engineering problems and architecting scalable digital systems.

Leadership and Entrepreneurship

Co-Founder and Project Estimator | Atelier Jous

Oct 20 – Jun 21

- Directed a residential renovation project valued at US\$4,500; managed end-to-end execution including structural cost estimation, shop drawings, and on-budget delivery.

General Director of Student Welfare | Student Executive Board Member (LKM UNPAR)

Oct 17 – Jun 18

- Directed strategic planning and fund management for student welfare initiatives, overseeing program development and the PM UNPAR Aspiration Tracking system.

Language

Indonesian (Native), English (Proficient; TOEFL 523/677), Japanese (Beginner)
